P.A. Zhilin — searching for Truth	6
Short biography and scientific results of P.A. Zhilin	9
Classical and Modified Electrodynamics (1996)	32
A General Model of Rigid Body Oscillator (1998)	43
Ferromagnets and Kelvin's Medium: Basic Equations and Magnetoacoustic Resonance (1998)	66
On the Painleve Paradoxes (2000)	89
The Main Direction of the Development of Mechanics for XXI Century (2000)	112
A.I. Lurie — Works on Mechanics (2001)	126
Phase Transitions and General Theory of Elasto-Plastic Bodies (2002)	140
Generalized Continuum and Linear Theory of Piezoelectric Materials (2002)	153
A Micro-Polar Theory for Binary Media with Application to Flow of Fiber Suspensions (2003)	165
Symmetries and Orthogonal Invariants in Oriented Space (2005)	204
Nonlinear Theory of Thin Rods (2005)	227
A Micro-Polar Theory for Piezoelectric Materials (2005)	250
List of basic publications by P.A. Zhilin	262
